

DANISH WORLDCLASS SOLUTIONS

SUPPLIER TO THE GLOBAL
WIND INDUSTRY

Rose Holm A/S is a leading Danish manufacturer of foundation bolts and stud bolts. Furthermore we supply anchor cage kit solutions including flanges, nuts, washers and bolts (C-Parts).

We are very cost efficient and have a high productivity record, which ensures that Rose Holm A/S meets the competitive level in the market. Our automated production plants, logistic systems, fast delivery time and quality documentation are among the main reasons why Rose Holm A/S today is a preferred supplier to global wind companies.

Due to our more than 65 years of metalworking experience, the innovative quality solutions from Rose Holm A/S are founded on in-depth knowledge of requirements, materials and processes.

Our team is highly skilled when it comes to handling all the different steps of our customers value chain: from development and production to surface treatment and logistics.

A high level of ongoing investments in state-of-the-art technology has brought Rose Holm A/S to be among the preferred suppliers to the global wind industry. That has made us able to deliver flexible and tailor-made solutions with a short lead time.

Rose Holm A/S is able to manufacture rolled threads in a wide range of dimensions and materials. Our quality documentation guarantees that we constantly will meet all international requirements regarding traceability and quality.
